

## **Correlation of the ALEKS course Florida Math 0022 to the Florida Mathematics Competencies - Lower and Upper**

---

### **Whole Numbers**

---

- = ALEKS course topic that addresses the standard

#### **MDECL1: Perform operations on whole numbers (with applications, including area and perimeter)**

- One-digit addition with carry
- Addition of 3 or 4 one-digit numbers
- Addition without carry
- Adding a 2-digit number and a 1-digit number with carry
- Addition with carry
- Addition with carry to the hundreds place
- Addition of large numbers
- Subtracting a 1-digit number from a 2-digit number
- Subtraction without borrowing
- Adding or subtracting 10, 100, or 1000
- Subtraction with borrowing
- Subtraction with multiple regrouping steps
- Subtraction and regrouping with zeros
- Word problem with addition or subtraction of whole numbers
- One-digit multiplication
- Multiplication by 10, 100, and 1000
- Multiplication without carry
- Multiplication with carry
- Multiplication with trailing zeros: Problem type 1
- Introduction to multiplication of large numbers
- Multiplication with trailing zeros: Problem type 2
- Multiplication of large numbers
- Division facts
- Word problem with multiplication or division of whole numbers
- Word problem with multiplication and addition or subtraction of whole numbers
- Division of whole numbers given in fractional form
- Division involving zero
- Division without carry
- Division with carry
- Division with trailing zeros: Problem type 1
- Division with trailing zeros: Problem type 2

- Quotient and remainder: Problem type 1
- Word problem on quotient and remainder
- Quotient and remainder: Problem type 2
- Quotient and remainder: Problem type 3
- Division involving quotients with intermediate zeros
- Word problem with division of whole numbers and rounding
- Perimeter of a polygon
- Perimeter of a square or a rectangle
- Sides of polygons having the same perimeter
- Finding the missing length in a figure
- Perimeter of a piecewise rectangular figure
- Area of a square or a rectangle
- Perimeter and area on a grid
- Distinguishing between area and perimeter
- Finding the side length of a rectangle given its perimeter or area
- Area of a piecewise rectangular figure
- Area of a parallelogram

### **MDECL2: Perform order of operations including absolute values**

- Introduction to parentheses
- Introduction to order of operations
- Order of operations with whole numbers
- Order of operations with whole numbers and grouping symbols
- Order of operations with whole numbers and exponents: Basic
- Order of operations with whole numbers and exponents: Advanced

### **MDECL3: Evaluate exponents with whole numbers**

- Writing expressions using exponents
- Introduction to exponents
- Power of 10: Positive exponent

### **MDECL12: Identify and apply the properties of real numbers**

- Introduction to properties of addition
- Introduction to properties of multiplication
- Understanding the distributive property

### **MDECL13: Identify place value and round whole numbers**

- Whole number place value: Problem type 1
- Whole number place value: Problem type 2
- Rounding to tens or hundreds
- Rounding to hundreds or thousands
- Rounding to thousands, ten thousands, or hundred thousands

### **MDECL14: Write the prime factorization of a number**

- Prime factorization

---

## Integers

---

- = ALEKS course topic that addresses the standard

### **MDECL4: Perform operations with integers (with applications)**

- Integer addition: Problem type 1
- Integer addition: Problem type 2
- Integer subtraction: Problem type 1
- Integer subtraction: Problem type 2
- Integer subtraction: Problem type 3
- Addition and subtraction with 3 integers
- Addition and subtraction with 4 or 5 integers
- Word problem with addition or subtraction of integers
- Integer multiplication and division
- Multiplication of 3 or 4 integers
- Order of operations with integers

### **MDECL15: Evaluate exponents with integers**

- Exponents and integers: Problem type 1
- Exponents and integers: Problem type 2
- Order of operations with integers and exponents

### **MDECL16: Evaluate absolute value expressions**

- Absolute value of a number
- Operations with absolute value

---

## Fractions

---

- = ALEKS course topic that addresses the standard

### **MDECL5: Perform operations with fractions (with applications)**

- Product of a unit fraction and a whole number
- Product of a fraction and a whole number: Problem type 1
- Introduction to fraction multiplication
- Fraction multiplication
- Product of a fraction and a whole number: Problem type 2
- Multiplication of 3 fractions
- Word problem involving fractions and multiplication
- Multi-step word problem involving fractions and multiplication
- Division involving a whole number and a fraction
- Fraction division
- Word problem involving fractions and division
- Addition or subtraction of fractions with the same denominator

- Addition or subtraction of fractions with the same denominator and simplification
- Finding the LCD of two fractions
- Addition or subtraction of unit fractions
- Introduction to addition or subtraction of fractions with different denominators
- Addition or subtraction of fractions with different denominators
- Addition and subtraction of 3 fractions with different denominators
- Word problem involving addition or subtraction of fractions with different denominators
- Fractional part of a circle
- Addition or subtraction of mixed numbers with the same denominator
- Addition of mixed numbers with the same denominator and carry
- Subtraction of mixed numbers with the same denominator and borrowing
- Addition or subtraction of mixed numbers with different denominators and no carry or borrow
- Addition of mixed numbers with different denominators and carry
- Subtraction of mixed numbers with different denominators and borrowing
- Addition and subtraction of 3 mixed numbers with different denominators
- Word problem involving addition or subtraction of mixed numbers with different denominators
- Mixed number multiplication
- Multiplication of a mixed number and a whole number
- Division with a mixed number and a whole number
- Mixed number division
- Word problem involving multiplication or division with mixed numbers
- Exponents and fractions
- Order of operations with fractions: Problem type 1
- Order of operations with fractions: Problem type 2
- Order of operations with fractions: Problem type 3
- Complex fraction without variables: Problem type 1
- Signed fraction addition or subtraction: Basic
- Signed fraction subtraction involving double negation
- Addition and subtraction of 3 fractions involving signs
- Signed fraction multiplication: Basic
- Signed fraction division
- Exponents and signed fractions
- Solving a fraction word problem using a linear equation of the form  $Ax = B$

### **MDECL6: Simplify fractions**

- Understanding equivalent fractions
- Equivalent fractions
- Introduction to simplifying a fraction
- Simplifying a fraction

---

## **Decimals & Percents**

---

- = ALEKS course topic that addresses the standard

## **MDECL7: Perform operations with decimals (with applications)**

- Addition of aligned decimals
- Decimal addition with 3 numbers
- Subtraction of aligned decimals
- Decimal subtraction: Basic
- Decimal subtraction: Advanced
- Decimal addition and subtraction with 3 or more numbers
- Word problem with addition or subtraction of 2 decimals
- Word problem with addition of 3 or 4 decimals and whole numbers
- Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
- Introduction to decimal multiplication
- Multiplication of a decimal by a whole number
- Decimal multiplication: Problem type 1
- Decimal multiplication: Problem type 2
- Multiplication of a decimal by a power of ten
- Multiplication of a decimal by a power of 0.1
- Multiplication of decimals that have a product less than 0.1
- Word problem with multiplication of a decimal and a whole number
- Word problem with multiplication of two decimals
- Word problem with decimal addition and multiplication
- Whole number division with decimal answers
- Division of a decimal by a whole number
- Division of a decimal by a 1-digit decimal
- Division of a decimal by a 2-digit decimal
- Division of a decimal by a power of ten
- Division of a decimal by a power of 0.1
- Decimal division with rounding
- Word problem with division of a decimal and a whole number
- Word problem with division of two decimals
- Word problem with decimal subtraction and division
- Squaring decimal bases: Products greater than 0.1
- Exponents and decimals: Products less than 0.1
- Order of operations with decimals: Problem type 1
- Order of operations with decimals: Problem type 2
- Order of operations with decimals: Problem type 3
- Signed decimal addition and subtraction
- Signed decimal addition and subtraction with 3 numbers
- Signed decimal multiplication
- Signed decimal division

## **MDECL8: Convert among percents, fractions, and decimals**

- Writing a decimal and a fraction for a shaded region
- Converting a decimal to a proper fraction without simplifying: Basic
- Converting a decimal to a proper fraction without simplifying: Advanced
- Converting a decimal to a proper fraction in simplest form: Basic

- Converting a decimal to a proper fraction in simplest form: Advanced
- Converting a decimal to a mixed number and an improper fraction without simplifying
- Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
- Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
- Converting a fraction with a denominator of 10 or 100 to a decimal
- Converting a fraction with a denominator of 100 or 1000 to a decimal
- Converting a fraction to a terminating decimal: Basic
- Converting a fraction to a terminating decimal: Advanced
- Converting a fraction to a repeating decimal: Basic
- Converting a fraction to a repeating decimal: Advanced
- Using a calculator to convert a fraction to a rounded decimal
- Converting a mixed number to a terminating decimal: Basic
- Converting a mixed number to a terminating decimal: Advanced
- Converting a fraction or mixed number to a rounded decimal
- Converting a fraction with a denominator of 100 to a percentage
- Converting a percentage to a fraction with a denominator of 100
- Introduction to converting a percentage to a decimal
- Introduction to converting a decimal to a percentage
- Converting between percentages and decimals
- Converting between percentages and decimals in a real-world situation
- Converting a percentage to a fraction in simplest form
- Converting a fraction to a percentage: Denominator of 4, 5, or 10
- Converting a fraction to a percentage: Denominator of 20, 25, or 50
- Using a calculator to convert a fraction to a rounded percentage
- Converting a fraction to a percentage in a real-world situation

### **MDECL17: Identify place value and round decimals**

- Decimal place value: Tenths and hundredths
- Decimal place value: Hundreds to ten thousandths
- Rounding decimals

### **MDECL18: Solve percent equations with applications**

- Finding a percentage of a whole number
- Finding a percentage of a whole number without a calculator: Basic
- Finding a percentage of a whole number without a calculator: Advanced
- Applying the percent equation: Problem type 1
- Applying the percent equation: Problem type 2
- Finding a percentage of a total amount: Real-world situations
- Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
- Writing a ratio as a percentage without a calculator
- Computing a percentage from a table of values
- Finding the rate of a tax or commission
- Finding the total amount given the percentage of a partial amount
- Finding the multiplier to give a final amount after a percentage increase or decrease
- Finding the final amount given the original amount and a percentage increase or decrease
- Finding the sale price given the original price and percent discount

- Finding the sale price without a calculator given the original price and percent discount
- Finding the total cost including tax or markup
- Finding the original amount given the result of a percentage increase or decrease
- Finding the original price given the sale price and percent discount
- Finding the percentage increase or decrease: Basic
- Finding simple interest without a calculator
- Finding a percentage of a total amount in a circle graph
- Computations from a circle graph

---

## Geometry

---

- = ALEKS course topic that addresses the standard

### **MDECL9: Solve application problems involving geometry (circumference of circle, perimeter of polygons, area of triangle, parallelograms, circle)**

- Perimeter of a polygon
- Perimeter of a square or a rectangle
- Perimeter of a polygon involving mixed numbers and fractions
- Sides of polygons having the same perimeter
- Finding the missing length in a figure
- Perimeter of a piecewise rectangular figure
- Area of a square or a rectangle
- Perimeter and area on a grid
- Area of a rectangle involving fractions
- Area of a rectangle involving mixed numbers and fractions
- Distinguishing between area and perimeter
- Finding the side length of a rectangle given its perimeter or area
- Area of a piecewise rectangular figure
- Area of a triangle
- Area of a parallelogram
- Circumference of a circle
- Circumference and area of a circle
- Finding the radius or the diameter of a circle given its circumference
- Circumference ratios

### **MDECL19: Convert units of measurement within same measurement system**

- U.S. Customary unit conversion with whole number values
- Conversions involving measurements in feet and inches
- U.S. Customary unit conversion with whole number values: Two-step conversion
- U.S. Customary unit conversion with mixed number values: One-step conversion
- U.S. Customary unit conversion with mixed number values: Two-step conversion
- U.S. Customary area unit conversion with whole number values
- Metric distance conversion with whole number values
- Metric mass or capacity conversion with whole number values

- Metric distance conversion with decimal values
- Metric conversion with decimal values: Two-step problem
- Metric area unit conversion with decimal values
- Time unit conversion with whole number values

---

## Pre-Algebra

---

- = ALEKS course topic that addresses the standard

### **MDECL10: Compare magnitude of real numbers**

- Introduction to inequalities
- Ordering large numbers
- Ordering fractions with the same denominator
- Ordering fractions with the same numerator
- Using a common denominator to order fractions
- Introduction to ordering decimals
- Ordering decimals
- Ordering fractions and decimals
- Ordering integers
- Ordering real numbers

### **MDECL11: Classify sets of numbers**

- Even and odd numbers
- Prime numbers
- Identifying numbers as integers or non-integers
- Identifying numbers as rational or irrational

### **MDECL20: Set up and solve ratios and proportions with simple algebraic expressions**

- Writing ratios using different notations
- Writing ratios for real-world situations
- Simplifying a ratio of whole numbers: Problem type 1
- Simplifying a ratio of decimals
- Finding a unit price
- Computing unit prices to find the better buy
- Solving a word problem on proportions using a unit rate
- Finding unit rates
- Solving a proportion of the form  $x/a = b/c$
- Word problem on proportions: Problem type 1
- Similar polygons
- Indirect measurement

### **MDECL21: Solve linear equations involving the addition and multiplication property of equalities**

- Additive property of equality with whole numbers
- Multiplicative property of equality with whole numbers
- Using two steps to solve an equation with whole numbers
- Additive property of equality with fractions and mixed numbers
- Additive property of equality with decimals
- Additive property of equality with integers
- Additive property of equality with signed fractions
- Multiplicative property of equality with fractions
- Multiplicative property of equality with decimals
- Multiplicative property of equality with integers
- Multiplicative property of equality with signed fractions
- Additive property of equality with a negative coefficient
- Solving a two-step equation with integers
- Introduction to solving an equation with parentheses
- Introduction to solving a linear equation with several occurrences of the variable
- Solving a linear equation with several occurrences of the variable: Variables on the same side
- Solving a linear equation with several occurrences of the variable: Variables on both sides
- Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
- Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution

**MDECL22: Define variables and write an expression to represent a quantity in a problem**

- Introduction to writing a one-step variable expression for a real-world situation
- Translating a phrase into a one-step expression
- Translating a phrase into a two-step expression
- Translating a sentence into a one-step equation
- Translating a sentence into a multi-step equation
- Writing and evaluating a function that models a real-world situation

**MDECL23: Simplify algebraic expressions involving one variable ( $2x + 5x$ )**

- Combining like terms: Whole number coefficients
- Combining like terms: Integer coefficients
- Multiplying a constant and a linear monomial
- Distributive property: Whole number coefficients
- Distributive property: Integer coefficients
- Using distribution and combining like terms to simplify: Univariate
- Using distribution with double negation and combining like terms to simplify: Multivariate

**MDECL24: Evaluate algebraic expressions (e.g., find value of  $3x$  when  $x=2$ )**

- Evaluating an algebraic expression: Whole number addition or subtraction
- Evaluating an algebraic expression: Whole number multiplication or division
- Evaluating an algebraic expression: Whole numbers with two operations
- Evaluating an algebraic expression: Whole number operations and exponents
- Evaluating a linear expression: Integer multiplication with addition or subtraction

- Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
- Evaluating a linear expression: Signed decimal addition and subtraction
- Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
- Evaluating a quadratic expression: Integers

### **MDECL25: Solve formulas with given values**

- Converting between temperatures in Fahrenheit and Celsius

### **MDECL26: Graph an inequality on a number line**

- Translating a sentence by using an inequality symbol
- Graphing a linear inequality on the number line
- Writing an inequality given a graph on the number line

## **Exponents & Polynomials**

- = ALEKS course topic that addresses the standard

### **MDECU1: Applies the order of operations to evaluate algebraic expressions, including those with parentheses and exponents**

- Order of operations with whole numbers
- Order of operations with whole numbers and grouping symbols
- Order of operations with whole numbers and exponents: Basic
- Order of operations with whole numbers and exponents: Advanced
- Evaluating an algebraic expression: Whole number operations and exponents
- Absolute value of a number
- Operations with absolute value
- Exponents and integers: Problem type 1
- Exponents and integers: Problem type 2
- Exponents and signed fractions
- Order of operations with integers and exponents
- Evaluating a linear expression: Integer multiplication with addition or subtraction
- Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
- Evaluating a linear expression: Signed decimal addition and subtraction
- Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
- Evaluating a quadratic expression: Integers
- Combining like terms: Whole number coefficients
- Combining like terms: Integer coefficients
- Multiplying a constant and a linear monomial
- Distributive property: Whole number coefficients
- Distributive property: Integer coefficients
- Using distribution and combining like terms to simplify: Univariate
- Using distribution with double negation and combining like terms to simplify: Multivariate
- Combining like terms in a quadratic expression

### **MDECU2: Simplifies an expression with integer exponents**

- Understanding the product rule of exponents
- Introduction to the product rule of exponents
- Product rule with positive exponents: Univariate
- Product rule with positive exponents: Multivariate
- Understanding the power rules of exponents
- Introduction to the power of a power rule of exponents
- Introduction to the power of a product rule of exponents
- Power rules with positive exponents: Multivariate products
- Power rules with positive exponents: Multivariate quotients
- Power and product rules with positive exponents
- Simplifying a ratio of multivariate monomials: Basic
- Introduction to the quotient rule of exponents
- Simplifying a ratio of univariate monomials
- Quotient of expressions involving exponents
- Simplifying a ratio of multivariate monomials: Advanced
- Power and quotient rules with positive exponents
- Evaluating expressions with exponents of zero
- Evaluating an expression with a negative exponent: Whole number base
- Evaluating an expression with a negative exponent: Positive fraction base
- Evaluating an expression with a negative exponent: Negative integer base
- Rewriting an algebraic expression without a negative exponent
- Introduction to the product rule with negative exponents
- Product rule with negative exponents
- Quotient rule with negative exponents: Problem type 1
- Quotient rule with negative exponents: Problem type 2
- Power of a power rule with negative exponents
- Power rules with negative exponents
- Power and quotient rules with negative exponents: Problem type 1
- Power and quotient rules with negative exponents: Problem type 2
- Power, product, and quotient rules with negative exponents

**MDECU3: Add, subtract, multiply, and divide polynomials. Division by monomials only.**

- Simplifying a sum or difference of two univariate polynomials
- Simplifying a sum or difference of three univariate polynomials
- Simplifying a sum or difference of multivariate polynomials
- Multiplying a univariate polynomial by a monomial with a positive coefficient
- Multiplying a univariate polynomial by a monomial with a negative coefficient
- Multiplying a multivariate polynomial by a monomial
- Multiplying binomials with leading coefficients of 1
- Multiplying binomials with leading coefficients greater than 1
- Multiplying binomials in two variables
- Multiplying conjugate binomials: Univariate
- Multiplying conjugate binomials: Multivariate
- Squaring a binomial: Univariate

- Squaring a binomial: Multivariate
- Multiplying binomials with negative coefficients
- Multiplication involving binomials and trinomials in one variable
- Multiplication involving binomials and trinomials in two variables
- Dividing a polynomial by a monomial: Univariate
- Dividing a polynomial by a monomial: Multivariate

### **MDECU11: Convert between scientific notation and standard notation**

- Scientific notation with positive exponent
- Scientific notation with negative exponent
- Converting between scientific notation and standard form in a real-world situation
- Multiplying numbers written in scientific notation: Basic
- Multiplying numbers written in scientific notation: Advanced
- Dividing numbers written in scientific notation: Basic
- Dividing numbers written in scientific notation: Advanced

### **MDECU12: Solve application problems involving geometry (perimeter and area with algebraic expressions)**

- Finding the side length of a rectangle given its perimeter or area
- Finding a side length given the perimeter and side lengths with variables
- Finding the perimeter or area of a rectangle given one of these values
- Solving a word problem using a quadratic equation with rational roots
- Using the Pythagorean Theorem and a quadratic equation to find side lengths of a right triangle

---

## **Factoring**

---

- = ALEKS course topic that addresses the standard

### **MDECU4: Solve quadratic equations in one variable by factoring**

- Finding the roots of a quadratic equation of the form  $ax^2 + bx = 0$
- Finding the roots of a quadratic equation with leading coefficient 1
- Finding the roots of a quadratic equation with leading coefficient greater than 1
- Solving a quadratic equation needing simplification

### **MDECU5: Factor polynomial expressions (GCF, grouping, trinomials, difference of squares)**

- Factoring a linear binomial
- Introduction to the GCF of two monomials
- Greatest common factor of three univariate monomials
- Greatest common factor of two multivariate monomials
- Factoring out a monomial from a polynomial: Univariate
- Factoring out a monomial from a polynomial: Multivariate
- Factoring out a binomial from a polynomial: Basic

- Factoring a univariate polynomial by grouping: Problem type 1
- Factoring a univariate polynomial by grouping: Problem type 2
- Factoring a multivariate polynomial by grouping: Problem type 1
- Factoring a multivariate polynomial by grouping: Problem type 2
- Factoring a quadratic with leading coefficient 1
- Factoring a quadratic in two variables with leading coefficient 1
- Factoring out a constant before factoring a quadratic
- Factoring a quadratic with leading coefficient greater than 1: Problem type 1
- Factoring a quadratic with leading coefficient greater than 1: Problem type 2
- Factoring a quadratic with leading coefficient greater than 1: Problem type 3
- Factoring a quadratic by the ac-method
- Factoring a quadratic in two variables with leading coefficient greater than 1
- Factoring a quadratic with a negative leading coefficient
- Factoring a perfect square trinomial with leading coefficient 1
- Factoring a perfect square trinomial with leading coefficient greater than 1
- Factoring a perfect square trinomial in two variables
- Factoring a difference of squares in one variable: Basic
- Factoring a difference of squares in one variable: Advanced
- Factoring a difference of squares in two variables
- Factoring a polynomial involving a GCF and a difference of squares: Univariate
- Factoring a polynomial involving a GCF and a difference of squares: Multivariate
- Factoring a product of a quadratic trinomial and a monomial
- Factoring with repeated use of the difference of squares formula

---

## Graphing

---

- = ALEKS course topic that addresses the standard

### **MDECU6: Graph linear equations using tables of values, intercepts, slope intercept form**

- Graphing a linear equation of the form  $y = mx$
- Graphing a line given its equation in slope-intercept form: Integer slope
- Graphing a line given its equation in slope-intercept form: Fractional slope
- Graphing a line given its equation in standard form
- Graphing a vertical or horizontal line
- Graphing a line given its x- and y-intercepts
- Graphing a line by first finding its x- and y-intercepts
- Graphing a line given its slope and y-intercept
- Graphing a line through a given point with a given slope
- Graphing a line by first finding its slope and y-intercept

### **MDECU13: Identifies the intercepts of a linear equation**

- Finding x- and y-intercepts given the graph of a line on a grid
- Finding x- and y-intercepts of a line given the equation: Basic

- Finding x- and y-intercepts of a line given the equation: Advanced
- Graphing a line given its x- and y-intercepts
- Graphing a line by first finding its x- and y-intercepts

### **MDECU14: Identify the slope of a line (from slope formula, graph, and equation)**

- Classifying slopes given graphs of lines
- Finding slope given the graph of a line on a grid
- Finding slope given two points on the line
- Finding the slope of horizontal and vertical lines
- Finding the slope and y-intercept of a line given its equation in the form  $y = mx + b$
- Finding the slope and y-intercept of a line given its equation in the form  $Ax + By = C$
- Graphing a line by first finding its slope and y-intercept

---

## **Linear Equations**

---

- = ALEKS course topic that addresses the standard

### **MDECU7: Solve linear equations in one variable using manipulations guided by the rules of arithmetic and the properties of equality**

- Additive property of equality with whole numbers
- Multiplicative property of equality with whole numbers
- Using two steps to solve an equation with whole numbers
- Additive property of equality with decimals
- Additive property of equality with integers
- Additive property of equality with signed fractions
- Multiplicative property of equality with fractions
- Multiplicative property of equality with decimals
- Multiplicative property of equality with integers
- Multiplicative property of equality with signed fractions
- Additive property of equality with a negative coefficient
- Solving a two-step equation with integers
- Introduction to solving an equation with parentheses
- Solving a multi-step equation given in fractional form
- Solving a two-step equation with signed decimals
- Introduction to solving a linear equation with several occurrences of the variable
- Solving a linear equation with several occurrences of the variable: Variables on the same side
- Solving a linear equation with several occurrences of the variable: Variables on both sides
- Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
- Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
- Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
- Solving a linear equation with several occurrences of the variable: Fractional forms with

monomial numerators

- Solving a two-step equation with signed fractions
- Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
- Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
- Solving equations with zero, one, or infinitely many solutions

**MDECU8: Solve literal equations for a given variable with applications (geometry, motion [ $d=rt$ ], simple interest [ $i=prt$ ])**

- Solving for a variable in terms of other variables using addition or subtraction: Basic
- Solving for a variable in terms of other variables using addition or subtraction: Advanced
- Solving for a variable in terms of other variables using multiplication or division: Basic
- Solving for a variable in terms of other variables using multiplication or division: Advanced
- Solving for a variable in terms of other variables using addition or subtraction with division
- Solving for a variable inside parentheses in terms of other variables
- Solving for a variable in terms of other variables in a linear equation with fractions

**MDECU15: Solve multi-step problems involving fractions and percentages (Include situations such as simple interest, tax, markups/markdowns, gratuities and commissions, fees, percent increase or decrease, percent error, expressing rent as a percentage of take home pay)**

- Applying the percent equation: Problem type 1
- Applying the percent equation: Problem type 2
- Writing a ratio as a percentage without a calculator
- Computing a percentage from a table of values
- Finding the rate of a tax or commission
- Finding the total amount given the percentage of a partial amount
- Finding the multiplier to give a final amount after a percentage increase or decrease
- Finding the final amount given the original amount and a percentage increase or decrease
- Finding the sale price given the original price and percent discount
- Finding the sale price without a calculator given the original price and percent discount
- Finding the total cost including tax or markup
- Finding the original amount given the result of a percentage increase or decrease
- Finding the original price given the sale price and percent discount
- Finding the percentage increase or decrease: Basic
- Finding the percentage increase or decrease: Advanced
- Finding simple interest without a calculator
- Computations from a circle graph
- Translating a phrase into a two-step expression
- Translating a sentence into a one-step equation
- Translating a sentence into a multi-step equation
- Solving a fraction word problem using a linear equation of the form  $Ax = B$
- Solving a fraction word problem using a linear equation with the variable on both sides

**MDECU16: Solve linear inequalities in one variable and graph the solution set on a**

## number line

- Translating a sentence into a one-step inequality
- Writing a one-step inequality for a real-world situation
- Graphing a linear inequality on the number line
- Identifying solutions to a linear inequality in one variable
- Additive property of inequality with whole numbers
- Additive property of inequality with integers
- Additive property of inequality with signed fractions
- Additive property of inequality with signed decimals
- Multiplicative property of inequality with integers
- Multiplicative property of inequality with signed fractions
- Solving a two-step linear inequality: Problem type 1
- Solving a two-step linear inequality: Problem type 2
- Solving a two-step linear inequality with a fractional coefficient
- Solving a linear inequality with multiple occurrences of the variable: Problem type 1
- Solving a linear inequality with multiple occurrences of the variable: Problem type 2
- Solving a linear inequality with multiple occurrences of the variable: Problem type 3
- Word problem with linear inequalities: Problem type 1

---

## Radicals

---

- = ALEKS course topic that addresses the standard

### **MDECU9: Simplify radical expressions - square roots only**

- Square root of a perfect square
- Using a calculator to approximate a square root
- Square root of a rational perfect square
- Finding all square roots of a number
- Square roots of perfect squares with signs
- Introduction to simplifying a radical expression with an even exponent
- Square root of a perfect square monomial
- Simplifying the square root of a whole number less than 100
- Simplifying the square root of a whole number greater than 100
- Simplifying a radical expression with an even exponent
- Introduction to simplifying a radical expression with an odd exponent
- Simplifying a radical expression with an odd exponent
- Simplifying a radical expression with two variables

### **MDECU10: Adds, subtracts, and multiplies square roots of monomials**

- Introduction to square root addition or subtraction
- Square root addition or subtraction
- Square root addition or subtraction with three terms
- Introduction to simplifying a sum or difference of radical expressions: Univariate
- Simplifying a sum or difference of radical expressions: Univariate

- Simplifying a sum or difference of radical expressions: Multivariate
- Introduction to square root multiplication
- Square root multiplication: Basic
- Square root multiplication: Advanced
- Introduction to simplifying a product of radical expressions: Univariate
- Simplifying a product of radical expressions: Univariate
- Simplifying a product of radical expressions: Multivariate
- Introduction to simplifying a product involving square roots using the distributive property
- Simplifying a product involving square roots using the distributive property: Basic

### **MDECU17: Rationalize the denominator (monomials only)**

- Simplifying a quotient of square roots
- Rationalizing a denominator: Quotient involving square roots
- Rationalizing a denominator: Square root of a fraction
- Rationalizing a denominator: Quotient involving a monomial

### **MDECU18: Solve application problems involving geometry (Pythagorean Theorem)**

- Introduction to the Pythagorean Theorem
- Pythagorean Theorem
- Word problem involving the Pythagorean Theorem

---

## **Rationals**

---

- = ALEKS course topic that addresses the standard

### **MDECU19: Recognize proportional relationships and solve problems involving rates and ratios**

- Solving a one-step word problem using the formula  $d = rt$
- Finding a unit price
- Computing unit prices to find the better buy
- Solving a word problem on proportions using a unit rate
- Finding unit rates
- Solving a proportion of the form  $x/a = b/c$
- Word problem on proportions: Problem type 1
- Word problem on proportions: Problem type 2
- Similar polygons
- Indirect measurement
- Solving a proportion of the form  $(x+a)/b = c/d$
- Solving a proportion of the form  $a/(x+b) = c/x$
- Solving a word problem involving rates and time conversion
- Word problem involving multiple rates

### **MDECU20: Simplify, multiply, and divide rational expressions**

- Complex fraction without variables: Problem type 1

- Simplifying a ratio of factored polynomials: Linear factors
- Simplifying a ratio of factored polynomials: Factors with exponents
- Simplifying a ratio of polynomials using GCF factoring
- Simplifying a ratio of linear polynomials: 1, -1, and no simplification
- Simplifying a ratio of polynomials by factoring a quadratic with leading coefficient 1
- Simplifying a ratio of polynomials: Problem type 1
- Simplifying a ratio of polynomials: Problem type 2
- Simplifying a ratio of polynomials: Problem type 3
- Simplifying a ratio of multivariate polynomials
- Multiplying rational expressions involving multivariate monomials
- Multiplying rational expressions made up of linear expressions
- Multiplying rational expressions involving quadratics with leading coefficients of 1
- Multiplying rational expressions involving quadratics with leading coefficients greater than 1
- Dividing rational expressions involving multivariate monomials
- Dividing rational expressions involving linear expressions
- Dividing rational expressions involving quadratics with leading coefficients of 1
- Dividing rational expressions involving quadratics with leading coefficients greater than 1
- Complex fraction involving univariate monomials
- Complex fraction involving multivariate monomials

### **MDECU21: Add and subtract rational expressions with monomial denominators**

- Introduction to adding fractions with variables and common denominators
- Adding rational expressions with different denominators and a single occurrence of a variable
- Writing equivalent rational expressions with monomial denominators
- Adding rational expressions with common denominators and monomial numerators
- Adding rational expressions with common denominators and binomial numerators
- Adding rational expressions with denominators  $ax$  and  $bx$ : Basic
- Adding rational expressions with denominators  $ax$  and  $bx$ : Advanced
- Adding rational expressions with denominators  $ax^n$  and  $bx^m$
- Adding rational expressions with multivariate monomial denominators: Basic
- Adding rational expressions with multivariate monomial denominators: Advanced

### **MDECU22: Convert units of measurements across measurement systems**

- Converting between temperatures in Fahrenheit and Celsius
- Converting between metric and U.S. Customary unit systems
- Converting between compound units: Basic
- Converting between compound units: Advanced
